PROFILE

To get an opportunity where I can make the best of my potential and contribute to the organization's growth.

EDUCATION

Master of Computer Application
GLS University

2022 – 2024 | Ahmedabad, India

Bachelor of Computer Application
Gujarat University

2019 – 2022 | Ahmedabad, India

PROFESSIONAL EXPERIENCE

Webapprise system
jr. python developer

Jun 2024 – present | Ahmedabad, India

Successfully developed and deployed a full-stack web application using Django, featuring dynamic user interfaces and seamless integration of RESTful APIs. Enhanced application functionality by creating custom APIs and optimizing backend performance, resulting in a 35% reduction in response times. **Implemented AI-driven image processing capabilities** to automatically tag and categorize images, significantly improving user experience and operational efficiency. Leveraged tools like **Meta for Developers**, **Facebook Ads Manager**, **Google Analytics**, and **AWS** for advanced analytics, advertising optimization, and cloud infrastructure management. Achieved a high level of system reliability and security, earning commendation for delivering **robust, scalable solutions** that met all project objectives and client needs.

Saubhagyam Web Pvt. Ltd. 
Python Backend Intern
Internship Experience:

Jan 2024 – Jun 2024 | Ahmedabad, India

In my role as a Python Backend Intern, I honed my skills in Python, specifically Django and Django REST frameworks. I also focused on backend development tasks, leveraging PostgreSQL and SQLite for database management.

Achievements:

During my internship, I actively contributed to backend module development, ensuring seamless integration into projects. Additionally, I expanded my expertise by acquiring proficiency in HTML and CSS for frontend collaboration, enriching my ability to contribute to comprehensive project development.

PROJECTS

Adsparrow

Sep 2024 – present

Ad Manager & Analytics

AdSparrow is a Django-based application designed for seamless integration with Facebook Ads Manager, enabling advanced ad performance analytics and management. The platform fetches and analyzes data with day-wise and month-wise metrics, including **ROI, CPC, and profit/loss**. It provides detailed insights into ad-wise **revenue** and allows users to manage ad operations, including updating budgets, activating or deactivating ads, and modifying ad statuses. Additionally, AdSparrow empowers users to create and manage campaigns, ad sets, and ads, tailored to individual user requirements.

Healthcare 

Mar 2024 – May 2024

Hospital Management System

The Hospital Management System facilitates seamless operations for both doctors and staff with distinct roles. Doctors can effortlessly log in, register, and manage patients, medications, and appointments, while automatically generating barcodes for medicines.

Crystal Event

Jan 2023 – Apr 2023

Event Management System

The Event Management System orchestrates seamless coordination among its three pivotal roles: Admin, Client, and Event Manager. Admins wield the power to login, add, and oversee events, manage event-related data, and augment experiences with food, cakes, decorations, and additional services. They also oversee the registration and update the status of events, ensuring smooth operations and timely payments.
